

Learn&Fly just arrive

“The future of Aeronautics is on the youth”

L&F Web Kick-off Meeting

On the 21st of November 2017, it took place the first Meeting of Learn&Fly project. This teleconference was the official start of the project. At this meeting were presented the administrative and management guidelines. It was also designed the strategy for the development of the project intellectual outputs.

- IO1 – Learn&Fly STEM Kit
- IO2 – Learn&Fly Careers Kit
- IO3 – Learn&Fly Challenge

L&F on the TanGin KoM

The Learn&Fly project was presented at the Kick-off Meeting of the TanGin project. The TanGin project is a project that addresses the issues of code together of young people in the classroom context. The target audiences of Learn&Fly and TanGin are the same, therefore, it made sense to disseminate L&F at this event where schools and other European organizations linked to education were present.

1st Transnational Meeting

The First Face-2-face meeting of the Learn&Fly project will take place on February 1st-2nd in Elgoibar Gipuzkoa, Basque Country. This meeting will be hosted by Machine Tool Institute (IMH). This meeting will be very important to analyze the current state of the project, and above all to outline the plans for the next months of project implementation.

Learn&Fly on The European Research Night – Porto 2017

The “European Research night” is a Europe-wide public event dedicated to popular science and fun learning. It takes place each year on the last Friday in September. Around 30 countries and over 300 cities are involved. In this year event, Learn&Fly was one of the project presented at the European corner together with other successful European projects. Even though The Learn&Fly project has not yet officially started, this and other initiatives are already being implemented by the project consortium, to disseminate the project's objectives and main lines of action. The Porto' 2017 edition, counted with more than 1400 students, about 100 researchers and more than 200 people (Researchers, professors, employers, general public) attending the conferences and the workshops that took place in the auditorium of the event.
